AT WORK

Having worked remotely for over 10 years I am keen on communication and collaboration understanding that relationships are an essential part of building teams. I have a passion for anything that helps people deliver quality faster which aside from building great software includes Agile, CI/CD and DevOps techniques.

OUTSIDE WORK

I am happily married with 2 kids who keep me busy in my spare time. Due to these “commitments” I am only allowed out after work on Fridays unless special permission is obtained.
